Halden Flex Power - Board Pack

Board meeting 22/07/2026 | Quarter ended 30/06/2026

CEO report

Q2 revenue of £42.1m was 4% below budget, driven by lower balancing-market prices in May. EBITDA of £15.3m was £1.7m behind budget. 30MW of battery capacity at Thornbury was energised in June.

Finance

Net debt closed the quarter at £312.0m. Leverage remains comfortably within the 5.5x covenant, and we do not anticipate any pressure on headroom over the next two quarters.

Risk register (extract)

Risk	Trend	Owner
Grid connection delay - Fenwick site	New	COO
Balancing-market price volatility	Worse	CCO
Refinancing of 2027 facility	Unchanged	CFO
